Dear Rainer Langhans

IGCSE Accreditation – By Training Material

Music
Centre – CN571

Further to the submission of the enclosed training materials for assessment by our moderator, I can inform you that the decision to accredit has been made and that the teacher has been approved.

The enclosed certificate confirms that training requirements have been completed and that the person named on the certificate may undertake assessment of students' coursework in accordance with CIE regulations.

It should be noted that CIE reserves the right to withdraw accreditation for coursework assessment if, in the light of the practical operation of the examination, it is decided that further training is required.

If your centre has applied for other teachers to be accredited or accreditation for more than one subject, please note they may not all be processed and despatched together.

Please note the reference number in the bottom right corner of the certificate. This number will need to be quoted on a form that is completed by your centre when provisionally entering candidates for IGCSE examinations.

Yours sincerely

Zoe Scarrow
